Re: SEC v. Medical Committee for Human  
Rights, No. 70-61

Dear Mr. Owen:

During the course of oral argument in this case the Court noted some suggestion on your part that the claim of mootness had been raised shortly before oral argument. The Court requested that I advise you that if you so desire you may submit a memorandum on that point. It may be typewritten, if you wish, with an original and nine legible copies.

Yours very truly,

E. Robert Seaver
